Property Description

Situated within a secure residential enclave in El Higueroón, this brand-new three-bedroom corner apartment offers refined contemporary living with open sea and valley views.

Located in the most elevated and private phase of the development, the property benefits from protected outlooks due to the agricultural land set in front, preserving long-term views and privacy.

With a total built interior of 117,11 m² and a spacious corner terrace, the residence is designed to create a seamless connection between indoor and outdoor living. The southwest orientation ensures natural light throughout the day and evening sunsets over the Mediterranean.

The interior layout is carefully arranged. The living and dining area extends across 36.56 m², directly connected to the terrace, creating an ideal setting for entertaining or quiet retreat. The Italian Zampieri kitchen is fitted with AEG appliances and finished with clean architectural lines and functional storage. Saloni ceramic flooring runs throughout the home, reinforcing a cohesive aesthetic.

The primary suite measures 17.48 m² and includes fitted Santalucia Mobili wardrobes and an en-suite bathroom with underfloor heating. Two additional bedrooms (12.13 m² and 12.88 m²) share a second bathroom, also with underfloor heating. A separate laundry room adds practicality to the layout.

Built in 2025 to European CTE building standards, the apartment incorporates aerothermal climate control for efficient heating and cooling, technical exterior carpentry for enhanced thermal and acoustic insulation, and an upgraded domotics system. Blinds, lighting, and climate settings are managed via wall panels or mobile application. Integrated smart features include flood detection with automatic water shut-off, smoke detection, and power-cut alerts.

The property is sold fully furnished by BoConcept and includes two underground parking spaces and a storage room. Residents enjoy landscaped gardens, an infinity pool with sun loungers, and 24-hour gated security.
