massive windows looking out at the pool, and incredibly high ceilings. Plus, the original wooden beams give the whole room tons of character and a really authentic feel. Up on the second floor, you'll find the master suite. It's a total sanctuary with its own private terrace, killer sea and mountain views, a huge walk-in closet, and a gorgeous, spa-like bathroom.

Down on the first floor, there are three more bedrooms and a separate home office—which you could easily turn into another bedroom if you need the extra space. Every inch of this villa pairs high-end, modern comforts with original design details. It's sophisticated, but it hasn't lost its soul. Bonus Space: Over 300 m² to Play With The massive basement and garage give you over 300 square meters of blank-canvas space to do whatever you want with.
